Belzona Inc. Announces a New Distributor for Colorado

Miami, FL – (March 11, 2008) Belzona Inc., a leading provider of coatings and repair composites, is pleased to announce the establishment of their most recent Distributor covering the state wide territory of Colorado – Colorado Belzona, Inc. With their knowledge of the Colorado market and their dedication to success, Colorado Belzona promises to serve new and existing customers with the utmost precision and quality that is consistently found with Belzona.

“We are excited about our new relationship with Colorado Belzona and of the mutually shared benefits we will pass on to our customers,” said Javier Palenque, Executive Vice President of Belzona Inc. Eric Oakes, of Colorado Belzona, expressed his sincere appreciation to work in a state he has lived in for most of his life. Born and raised in Colorado, he has gained much knowledge of the market and its people, giving him an edge during the initial start-up phase of his business. Previous experiences in leadership while serving the military in addition to business skills acquired as a landscape contractor and oil and gas field equipment operator has made him a well-rounded individual for managing his new distributorship. His father Loy, a retired Continental Airlines Captain, and brother Ryan, who became familiar with the industry through his work at a blasting company, assist with daily business duties. Together they run the warehouse, office facilities, shipping processes, and other daily operations while Eric gains new customers and serves existing clientele in the field.

Thus far business has proven to be as successful as planned, with jobs coming in from the power industry, heavy equipment, commercial facilities, and brewing manufacturers. But they have just begun their quest to reach full market potential, especially when considering Colorado’s ever expanding military and oil and gas market. “As we work with clients, the cost savings of Belzona solutions will positively impact key decision makers who will pass on their experiences. This value added engineering will begin to spread and become prevalent within the industries in dire need for repairs, maintenance, and protection,” explained Eric.

Colorado Belzona, Inc. is located at 2111 S. Trenton Way #107, Denver, CO 80231. For more information on the products and services provided by Colorado Belzona, Inc. authorized Belzona distributor, please contact Eric Oakes at (303) BEL-ZONA.

About Belzona Inc.

As the manufacturer of industrial protective coatings and repair composites since 1952, Belzona provides a wide variety of solutions to rebuild, repair and maintain machinery, equipment and building structures. Belzona’s local on-site Technical Consultants analyze the situation, recommend the solution, and supervise the application. With their Global Distribution Network covering over 120 countries and 24-hour Technical Support, Belzona is established in the forefront of industry by serving such markets as oil and gas, power, marine, and water/wastewater.
