## High Performance Resurfacing Screed

Belzona® 4131 (Magma-Screed) is a two-component system for the repair and resurfacing of concrete and stonework.

This high performance non-porous resurfacing material provides excellent protection against the effects of abrasion, impact, vibration, and chemical attack.

### Belzona® 4131 (Magma-Screed) will:

- Simplify maintenance procedures
- Provide long term protection
- Avoid costly structural rebuild
- Adhere tightly to all types of rigid substrates

Belzona® 4131 (Magma-Screed) can be applied to a wide range of substrates without the need for specialist tools. This multi-purpose material will cure effectively under adverse conditions and provide a seamless finish.
