

Drive Roller Gets Belzona Grip System

Roller prior to application

Surface preparation by blasting

Chevron pattern was created

Completed application

STATISTICS

CUSTOMER

Cement plant,
Bulgaria

APPLICATION DATE

June 2006

SUBSTRATE

Mild Steel

PRODUCTS

Belzona® 1321
Belzona® 9211

APPLICATION SITUATION

Conveyor belt drive roll with diameter 1000 mm.

PROBLEM

The drive roller had no lagging and was exposed to the weather conditions causing loss of grip and slippage.

APPLICATION METHOD

Application was carried out in accordance with Belzona® Know-How System Leaflet SHM-12.

BELZONA FACTS

Belzona solution was half the cost and faster to apply than conventional hot vulcanization. The roll was prepared and the system applied without leaving the facility. At the end of 2007 the system is still in perfect condition and the client is considering application to another unit.
