

Product Data

High Performance Chemical Resistant Coating

Belzona® 4311 (Magma CR1) is a high performance two component barrier coating for protecting surfaces against the effects of chemical attack.

This solvent free coating provides outstanding resistance to a broad range of chemicals, especially acids and alkalis.

Belzona® 4311 (Magma CR1) will:

- Simplify maintenance procedures
- Cut downtime
- Provide long term protection

Belzona® 4311 (Magma CR1) will bond to almost any rigid surface including metals, concrete, brick, tile and glass without the need for specialist tools.
