WHMIS MATERIAL SAFETY DATA SHEET

SECTION 1 - Product Identification and Use		Date : **23 October, 2000**
Product identifier : **BELZONA® 3911 (PSC SURFACE CONDITIONER)**		PIN/UN No : **1263**
Product use : **Repair and Reclamation**		WHMIS classification : **B2,D2A**
Manufacturer's name & address : **BELZONA POLYMERICS Ltd.,** Claro Road, Harrogate, Yorkshire, HG1 4AY, United Kingdom. Emergency telephone number : U.K. -44-1423-503218	Supplier's name & address : **BELZONA Inc.,** 2000 N.W. 88 Court, America's Gateway Park, Miami, Florida 33172, United States.	Supplier's emergency telephone numbers : (Spill, Leak, Fire, Exposure or Accident) 800 424 9300 - Toll free in Canada 202 483 7616 Information telephone number : 305 594 4994 - Working hours only

SECTION 2 - Hazardous Ingredients

Hazardous Ingredients	Approximate Concentration	CAS Numbers	Exposure Limits	LD_{50}/LC_{50} Species and Route
Xylene	**10-30%**	**1330-20-7**	**ACGIH (TWA)TLV 100 ppm**	**Oral LD_{50} 4300mg/kg rat**
N-(Trichloromethylthio)phthalimide	**0.5-1.5%**	**133-07-3**	**Not available**	**Oral LD_{50} >5000mg/kg rat**
Solvent naphtha (petroleum) light aromatic	**30-60%**	**64742-95-6**	**(TWA) 200 mg/m^3 ***	**Not available**
1,2,4 Trimethylbenzene	**10-30%**	**95-63-6**	**ACGIH (TWA)TLV 25 ppm**	**Oral LD_{50} 5000mg/kg rat** **IHL LC_{50} 1800 mg/kg rat**
*** Supplier's recommendation**				

SECTION 3 - Physical Data

Physical state : **Liquid**	Appearance/Odour : **Violet/hydrocarbon**	Odour threshold(ppm) : **Not available**
Vapour pressure (mm Hg) : **5.0 @ 25°C**	Vapour density (Air = 1) : **>1**	Boiling point (°C) : **≥137**
pH : **Not applicable**	Specific gravity : **0.96**	Coefficient water/oil : **Not available**
Freezing point (°C) : **Not applicable**	Solubility in water (20°C) : **Negligible**	Evaporation rate (relative to n-Butyl Acetate) : **Slower**

SECTION 4 - Fire and Explosion Data

Flammability : If yes, under which conditions :	**Flammable**	
Means of extinction :	**Use: sand, alcohol resistant foam, carbon dioxide, chemical powder, water fog for larger fires. Do NOT use water jet.**	
Special procedures :	**Wear protective clothing and use self-contained breathing apparatus. Full bunker gear should be worn in extreme cases. Use sand to contain burning material.**	
Flash point and method : **34°C Closed cup**	Explosion limits (% by volume) : Lower : **0.8** Upper : **Not available**	Autoignition temp (°C) : **450**
Hazardous combustion products : **Gaseous combinations of carbon, hydrogen and oxygen**		
Explosion data - Sensitivity to impact : **Not applicable**	Explosion data - Sensitivity to static discharge : **Not applicable**	

SECTION 5 - Reactivity Data

Chemical stability : If no, under which conditions :	**Yes**
Incompatibility to other substances : If yes, which ones :	**Yes** **Strong oxidisers**
Reactivity and under what conditions :	**Not applicable**
Hazardous decomposition products :	**See hazardous combustion products above**

Product identifier : **BELZONA® 3911 (PSC SURFACE CONDITIONER)**

SECTION 6 - Toxicological Properties of Product

Route of entry :
Skin contact : √ Skin absorption : √ Eye contact : √ Inhalation acute : √ Inhalation chronic : Ingestion : √

Effects of acute exposure to product : **Harmful by inhalation and in contact with skin.**

Effects of chronic exposure to product : **Dermatitis**

LD_{50} of product (species and route) : **Not available**	Irritancy of product : **Moderate/severe to eyes/skin and respiratory system.**	Exposure limits of product : **See hazardous ingredients**
LC_{50} of product (species and route) : **Not available**	Sensitization to product : **Skin**	Synergistic materials : **Not available**

Carcinogenicity : √† Reproductive effects : **N.ap** Teratogenicity : **N.ap** Mutagenicity : **N.ap**

† The EC have classified N-(Trichloromethylthio)phthalimide as a Category 3 Carcinogen - substances that cause concern for humans owing to possible carcinogenic effects.

SECTION 7 - Preventative Measures

Personal protective equipment :	Gloves : **Impermeable Nitrile or Neoprene or PVA**	Eye : **Goggles/faceshield**
Footwear : **Industrial boots**	Respiratory (protection required if exposure > TLV) : **Face mask with organic vapour canister**	Clothing : **Overalls**

Other :	**Air fed respirator if the oxygen content in the air being breathed is less than 18%.**
Engineering controls :	**Where adequate natural ventilation is not available provide suitable local exhaust ventilation.**
Leak and spill procedures :	**Contain with a dry inert material (e.g. sand). Sweep up and place into suitable covered, labelled containers. Flush area with detergent and water.**
Waste disposal :	**In accordance with Federal, Provincial and Local Regulations.**
Handling procedures :	**Avoid contact with skin and eyes. Do not breathe fumes/vapour.**
Storage requirements :	**Keep in a cool, well ventilated place, in the original containers.**

SECTION 8 - First Aid Measures

Skin :	**After contact with skin, wash immediately with plenty of soap and water.**
Eye :	**In case of contact with eyes, rinse immediately with plenty of water and seek medical advice if any irritation persists.**
Inhalation :	**If symptoms are experienced, remove source of contamination or move victim to fresh air. Obtain medical attention immediately if recovery is delayed.**
Ingestion :	**Do not induce vomiting. Immediately rinse the mouth with water. Drink plenty of water (1 pint/600 mls). Seek medical attention promptly.**
General advice :	**When using do not eat, drink or smoke. Take off immediately all contaminated clothing and launder before reuse. Wash hands thoroughly after handling this product.**

SECTION 9 - Preparation Date of MSDS

Additional information : **Replaces previous issue dated 7 October 1997**
